AI AUTOMATION AGENCY / SYSTEMS THAT RUN

SYSTEM FIX AI
AUTOMATION AGENCY

We fix broken systems with AI.

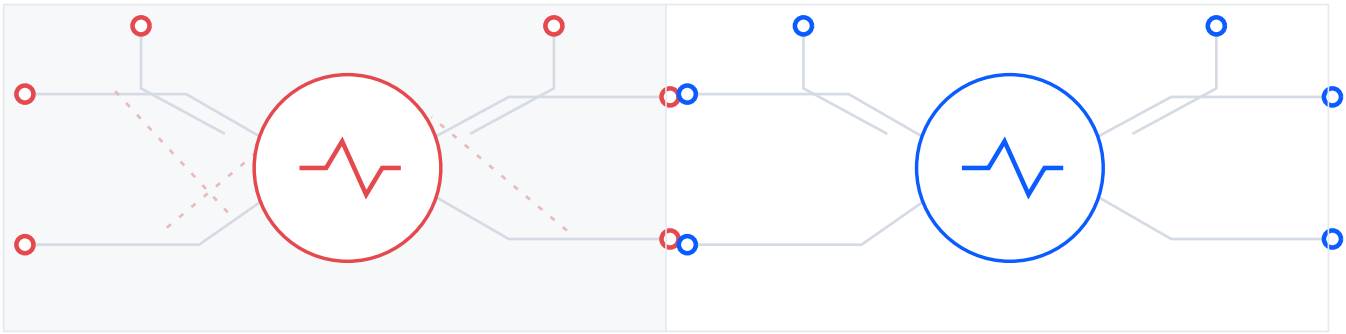

SystemFixAI finds the manual, slow, error-prone work in your operations and replaces it with automations that run around the clock.

THE SYSTEM GAP

Your business runs on duct tape.

Copy-pasting between tools. Leads that go cold in inboxes. Reports built by hand, every week.

BEFORE / DISCONNECTED AFTER / CONNECTED

FOUR SYSTEMS / ONE AUTOMATION PARTNER

From first message to back office.

Connect conversations, sales, content, and operations. Let automation carry the handoff from one step to the next.

01 / Customer conversations

Email automation
AI voice agent integration
WhatsApp automation
Instagram and Facebook DM automation
Support chatbots

02 / Sales & bookings

Lead generation and outreach
Sales-to-CRM handoffs
CRM automation
Booking and reminders

03 / AI content engine

AI content creation
Content review and approval
Repurpose content across channels

04 / Business operations

Finance and accounting
Invoice processing and payment reminders
Reconciliation
Legal and compliance
Procurement and inventory

YOUR CURRENT TOOLKIT

Works with the tools you already use.

No rip-and-replace project. Connect the systems your team relies on today.

Slack	**HubSpot**	**Salesforce**	**Notion**
Google Workspace	**Stripe**	**Airtable**	**n8n**
Make	**Zapier**	**OpenAI**	**Anthropic**

A CLEAR PATH TO LIVE

From audit to autopilot in weeks.

A short, collaborative process with working systems and clear ownership at every step.

01 / 3 DAYS

Audit

Map the process, tools, and places work gets stuck.

PROCESS MAP

02 / 1 WEEK

Design

Agree on a scoped plan, safeguards, and success measure.

03 / 2 WEEKS

Build

Connect the systems and test with your real workflow.

LIVE AUTOMATION

04 / 3 DAYS

Deploy

Launch with a clear handover and team walkthrough.

05 / ONGOING

Optimize

Review performance and improve as the operation changes.

MONTHLY REPORT

MEASURABLE CHANGE

Numbers, not promises.

Representative outcomes shown in the frontend concept. Confirm client figures before publication.

–62%

Lead response time

A routing system assigns inquiries and starts follow-up.

14 hrs/wk

Returned to the team

Live reporting replaces manual spreadsheet work.

3.2×

Faster ticket triage

Incoming requests reach the right specialist sooner.

HOW WE WORK

Built for the people who run it.

A useful automation should make the day easier for the team doing the work.

Fixed-scope pricing

No surprise invoices. The outcome and scope are clear before we build.

Human in the loop

Your team approves decisions that need a person.

You own everything

Workflows, code, and documentation are yours to keep.

Monitored after launch

We stay close to production and catch issues early.

FROM THE OPERATIONS FLOOR

“Our Monday used to disappear into spreadsheets. Now the numbers are ready before the team arrives.”

ALEX MORGAN / COO, FIELDNOTE / 14 HOURS PER WEEK BACK

COMMON QUESTIONS

A few things to know.

How much does it cost?	A free audit comes first, then a fixed-scope proposal.
How long until something is live?	Focused automations typically launch in two to four weeks.
Which tools do you work with?	We connect CRMs, inboxes, forms, spreadsheets, support desks, databases, and APIs.
Who owns the automations?	You own your workflows, code, documentation, and business data.

START WITH THE BOTTLENECK

Find out what’s broken.

Free 30-minute system audit. No pitch deck.

FREE AUDIT

A focused conversation about the process, tools, and handoffs slowing your team down.
